

Public Health

Community Health and Wellness**Department Summary**

The Community Health and Wellness Division provides research-based public health services to improve and protect the well-being of populations identified to be most at risk for poor health outcomes. Negative health outcomes currently of highest concern are: disease and death due to tobacco use or exposure; premature births and/or low birthweight babies; delayed growth and development of babies and young children; and HIV and AIDS. Populations most often reached through division activities include pregnant women with specific health risks; infants and young children with specific health risks; persons using or exposed to tobacco; persons practicing unsafe sex; and injection drug users.

Program Summary

HIV/AIDS Coordination & Care: Region 6

Designated as lead for the 11 county AIDSNET Region 6, the HIV/AIDS Care and Coordination Program provides technical support and/or oversight to prevention and care programs supported through Omnibus, CDC, and Ryan White Care Act funds. Activities include coordination of regional prevention and care planning, participation in state planning, and support to local programs and consortia.

Community Health and Wellness

Program Summary

Health Promotion: HIV/AIDS Prevention

Supported through dedicated Omnibus, CDC and other prevention funds, and under the guidance of the Region 6 Coordinator, health promotion staff work to prevent the spread of HIV and AIDS, primarily through a harm reduction model. Efforts are targeted to those populations most at risk: injection drug users and men who have sex with men.

Community Health and Wellness

Program Summary

Health Promotion: Tobacco Prev./Control

Supported through dedicated funds for tobacco prevention and control, and under the guidance of the Washington State Tobacco Prevention Program, health promotion staff work with community partners to prevent initiation and support cessation of use of tobacco products. Emphasis is placed on populations of greatest or most urgent impact: children and young people, pregnant women, and minority persons.

Community Health and Wellness

Program Summary

Women, Infants and Children (WIC)

The Women, Infants and Children (WIC) Program supports good nutrition for pregnant and breastfeeding women, their infants and young children through nutrition education and provision of food vouchers for purchase of healthy foods. Participation in the WIC program increases positive health outcomes of pregnancy and child growth and development.

Environmental Health

Department Summary

The EH Division consists of two major areas of focus, Consumer Protection, and Resource Protection. Consumer Resources implements two programs, Food and Water, to protect the direct receiver of services. Resource Protection includes two program areas also, Liquid Waste and Solid Waste, which are implemented to prevent degradation of ground and surface waters.

Program Summary

Food

The focus of the food program is the prevention of food borne illness. Routine inspections are carried out in food service establishments, groceries, lounges, bakeries, temporary food events, schools and institutions. Education and consultation are the preferred activities of the program. 10,000 + food handler education certificates (FH Cards) are given out each year.

Program Summary

Liquid Waste

The Liquid Waste Program focuses on protecting groundwater and preventing illness, via proper treatment of domestic sewage. The staff evaluates soils and plan designs, and approves installations of septic systems. The staff also reviews proposals for new development before land development is approved. Proper maintenance and operation of septic systems is rapidly becoming a central theme for the program.

Program Summary

Solid Waste

The approval and oversight solid waste and hazardous waste activities are the focus of this program. Staff assures that solid waste, including hazardous waste, is stored, collected and disposed of properly to minimize the contamination of ground and surface water. Site inspections are conducted routinely at active and closed landfills, transfer stations, recycling stations, composting facilities. Staff responds to request from the public regarding nuisances and illegal dumping. Known sites of hazardous waste disposal are monitored and illegal drug labs are investigated in conjunction with local law enforcement personnel.

Epidemiology

Department Summary

The epidemiology and clinical services department includes three units, Clinical Services, Infectious Disease and Assessment and Research. The clinical services unit provides refugee health screening, family planning, sexually transmitted disease screening, treatment and partner follow-up as well as immunizations for adults and children. Clinic staff are also responsible for facilitating access to health care for uninsured and Medicaid eligible clients. The infectious disease unit is responsible for surveillance and investigation of all notifiable disease including tuberculosis. The assessment and research unit is responsible for the collection, analysis and dissemination of key health indicators and Health Department program evaluation and performance measurement.

Epidemiology

Program Summary

Assessment and Research

The Assessment and Research unit provides services in order to better understand health issues in our community. Legal authority for providing these services comes from RCW 43.70.520. Further support for providing these services comes from the Washington State Public Health Improvement Plan. One of the key functions of this unit is to monitor, analyze and report disease trends in our community. In addition, this unit is critical in providing technical assistance with epidemiological investigations including infectious disease outbreaks. Internally, the Assessment and Research staff provides leadership to other units in program evaluation efforts.

Epidemiology

Program Summary

Clinical services

The clinical services unit provides services directed at the control of infectious diseases in our jurisdiction as mandated by RCW 70.05.060 (Powers and duties of local board of health) and RCW 70.05.070 (Local health officer-- Powers and duties). This unit serves our community by providing immunizations to adults and children, community immunization education, HIV counseling and testing, health screening for refugees, access to health care by assisting families and pregnant women enroll in the Washington State health insurance plans, and referrals to community providers. In addition, staff distributes free Washington State-supplied vaccines to community health care providers and provides education around the storage, handling and administration of these vaccines. In 2001 the program distributed 135,857 doses of childhood vaccines to local providers and directly administered 10,947 doses of childhood vaccines to health district clients.
